DIY with Personal Touch

Combine the printability of Personal Touch with Grandioso and foil accents to make your holiday cards pop.

Instructions

1. Download the Personal Touch template from kellypaper.com/templates.

2. Add your message and print.

3. Cut out lightbulb shape. You can do this free-hand or with a personal die-cutter.

4. Cut out rounded rectangle in the silver foil for the lightbulb base.

5. Tape or glue the lightbulb shapes to their bases so that no tape or glue is showing.

6. Use the marker to draw the light string on the face of the A-7 card.

7. Use Pop-Up Glue Dots to arrange the lights on the strings.

8. Trim any lightbulbs that might hang over the edge of the A-7 card.

DIY Cards with Crane's Lettra

Pair watercolors with our gold, silver, and rainbow foils. Crane's Lettra is perfect for watercolors, since the thickness makes it less likely to curl when wet.
